2.1)
```
<html>
        <head>
                <title> Login form </title>
                <body bgcolor="lavender" >
                <center>
                        <h1> LOGIN FORM </h1>
                </center>
                <form>
                        <label for="name">Enter username</label><br>
                        <input type="text" id="name" name="name"><br>
                        <label for="pass">Enter Password</label><br>
                        <input type="Password" id="pass" name="pass"><br>
                        <input type="submit" value="submit">
        <input type="checkbox" checked="checked"> Remember me
        <button type="button" class="cancelbtn"> Cancel</button>
        Forgot <a href="#"> password? </a>
                </form>
                </body>
</html>
```

2.2)

```html
<html>
        <head>
        <title> Registration Form </title>
        </head>
                <body>
                <center>
                        <h1> REGISTRATION FORM </h1>
                <form>
                        <table style="border:1px solid" bgcolor="lavender">
                        <tr>
                        <td><label>Name</label></td>
                        <td><input type="text" id="name" name="name" size="15"></td>
                        </tr>
                        <tr>
                        <td><label>Password</label></td>
                        <td><input type="Password"></td>
                        <td><input="Password" id="pass" name="pass"></td>
                        </tr>
                        <tr>
                        <td><label>E-Mail</label></td>
                        <td><input type="email" id="email" name="email"></td>
                        </tr>
                        <tr>
                        <td><label>Phone Number</label></td>
                        <td>
                                <input type="text" name="country code" value="+91" size="2"/>
                                <input type="text" name="phone" size="10"/>
                        </td>
                        </tr>
                        <tr>
                        <td><label>Gender</label></td><br>
                        <td>
                                <input type="radio" name="male"/>Male<br>
                                <input type="radio" name="female"/>Female<br>
